

Viewtube conquers Italy !!!

As our good customer “Sodastream” had a message to tell all over the world, they obtained for “The viewtube. The cage situated a problem towards the GREEN environment , and the viewtube delivered the solution by showing their products. This manner of sending out a message gave a lot of Rumors in the world, on which they anticipated very hard. The cage with empty bottles explained the waste problem we still have. Only 30% of the waste of cans and bottles is recycled. By using the Sodastream machine you could reduce this figure a lot.

The exhibition at Malpensa Airport in Milaan gave a very good result and testimonial.

The exhibition got the outdoor specialist in rotating object, “GESTED” very excited and he ordered the viewtube for his own dynamic GAMMA.
